PROFILE

A focused and motivated Full Stack Developer with 4 years of hands-on experience specializing in building modern, responsive, and high-performance user interfaces with React.js. Passionate about creating intuitive and engaging user experiences by combining strong technical skills with a keen eye for UX/UI design. Proven ability to take projects from concept to deployment using the MERN stack.

WORK EXPERIENCE

LKRO, FULL STACK WEB DEVELOPER
2022 - 2025

- Led the frontend development of a dynamic organizational website, architecting the application using React.js to create a component-based, single-page application (SPA) that improved user engagement and site performance.
- Engineered reusable React components and custom hooks, streamlining development processes and ensuring code consistency across the application.
- Implemented responsive layouts using modern CSS techniques and Bootstrap, ensuring a seamless user experience across all device platforms (desktop, tablet, mobile).
- Applied UX/UI best practices to translate design requirements into functional features, enhancing usability and user satisfaction.
- Collaborated effectively in a full-stack environment, integrating frontend components with backend RESTful APIs built with Node.js and Express.

2021
Completed foundational secondary
education with a focus on university
preparatory subjects.*

PROJECTS

LKRO Dynamic Website | (React.js, Node.js, MongoDB, Bootstrap)

- Spearheaded the development of the company's main website. Built the entire frontend with React, managing state efficiently and ensuring optimal performance.
- Key Achievement: Delivered a fully responsive and interactive web application that served as the primary digital interface for the organization.

Internal HR Management System | (React.js, Node.js, MongoDB)

- Developed the frontend for an internal database application featuring data tables, forms, and user authentication flows, demonstrating the ability to build complex, data-driven interfaces.
